ABOUT US :

Welcome to Livic Minerals LLP, home to "V sand," your trusted partner in the silica sand and construction sand industry. Established in 2024 and headquartered in Sultanpura, Jhagadia, Bharuch, Gujarat, we are dedicated to setting new benchmarks in quality, innovation, and sustainability. Supplier of premium quality Foundry grade Silica sand AFS 40/45, Silica sand AFS 45/50, Silica sand AFS 50/55, Silica sand AFS 55/60, Construction Grade Silica Sand, Tiles Adhesive Silica Sand, Ready Mix Plaster Grade Silica Sand, Micro Fine Silica Sand

EXPERTISE AND INNOVATION :

Backed by a team of industry experts and utilizing state-of-the-art technology, we have honed our expertise in the extraction, processing, and distribution of silica sand and related products. "V sand" represents our dedication to delivering superior products that meet the stringent demands of diverse industrial applications.

VISION :

At Livic Minerals LLP, our vision is to set the benchmark in the silica sand industry by providing premium quality products, fostering sustainable practices, and exceeding customer expectations globally.

Established
2024

OUR JOURNEY :

Founded with a vision to redefine industry standards, Livic Minerals LLP has quickly established itself as a leading supplier of premium-quality silica sand, construction sand, and P Sand under our brand "V sand." Our journey is rooted in a commitment to excellence and customer satisfaction, driven by a passion for innovation and responsible mining practices.

QUALITY ASSURANCE :

At Livic Minerals LLP, quality assurance is at the core of everything we do. We adhere to rigorous quality control standards throughout our operations, ensuring that "V sand" products consistently exceed industry benchmarks for purity, performance, and reliability. Our commitment to quality is a testament to our unwavering dedication to customer

CUSTOMER FOCUS :

At the heart of our business philosophy lies a strong commitment to understanding and meeting the unique needs of our customers. We pride ourselves on delivering personalized service and tailored solutions that enhance operational efficiency and drive success for our clients. With "V sand," you can expect unparalleled service and support from a team dedicated to your satisfaction.

LIVIC MINERALS LLP

STRONGER BUILDING - STRONGER NATION

► COMMUNITY ENGAGEMENT:

Beyond business excellence, Livic Minerals LLP is deeply committed to making a meaningful difference in the communities where we operate. Through partnerships and initiatives, we actively support local development projects, education initiatives, and initiatives that promote social welfare.

► VISION FOR THE FUTURE:

Looking ahead, we are committed to expanding the reach of "V sand" globally while maintaining our steadfast commitment to quality, integrity, and innovation. Our vision is to continue leading the industry by delivering innovative products, advancing sustainable practices, and exceeding customer expectations at every turn.

► MISSION :

Our mission is to operate with integrity and excellence, leveraging advanced technology and innovative processes to deliver consistent, high-quality silica sand and related products. We are dedicated to achieving sustainable growth while maintaining the highest standards of environmental stewardship and social responsibility.

► CORE VALUES :

QUALITY EXCELLENCE:

We prioritize quality in every aspect of our operations, from mining to processing and customer service.

INTEGRITY:

We conduct our business with honesty, transparency, and respect for all stakeholders.

INNOVATION:

We embrace innovation to continually enhance our products and processes, staying at the forefront of industry advancements.

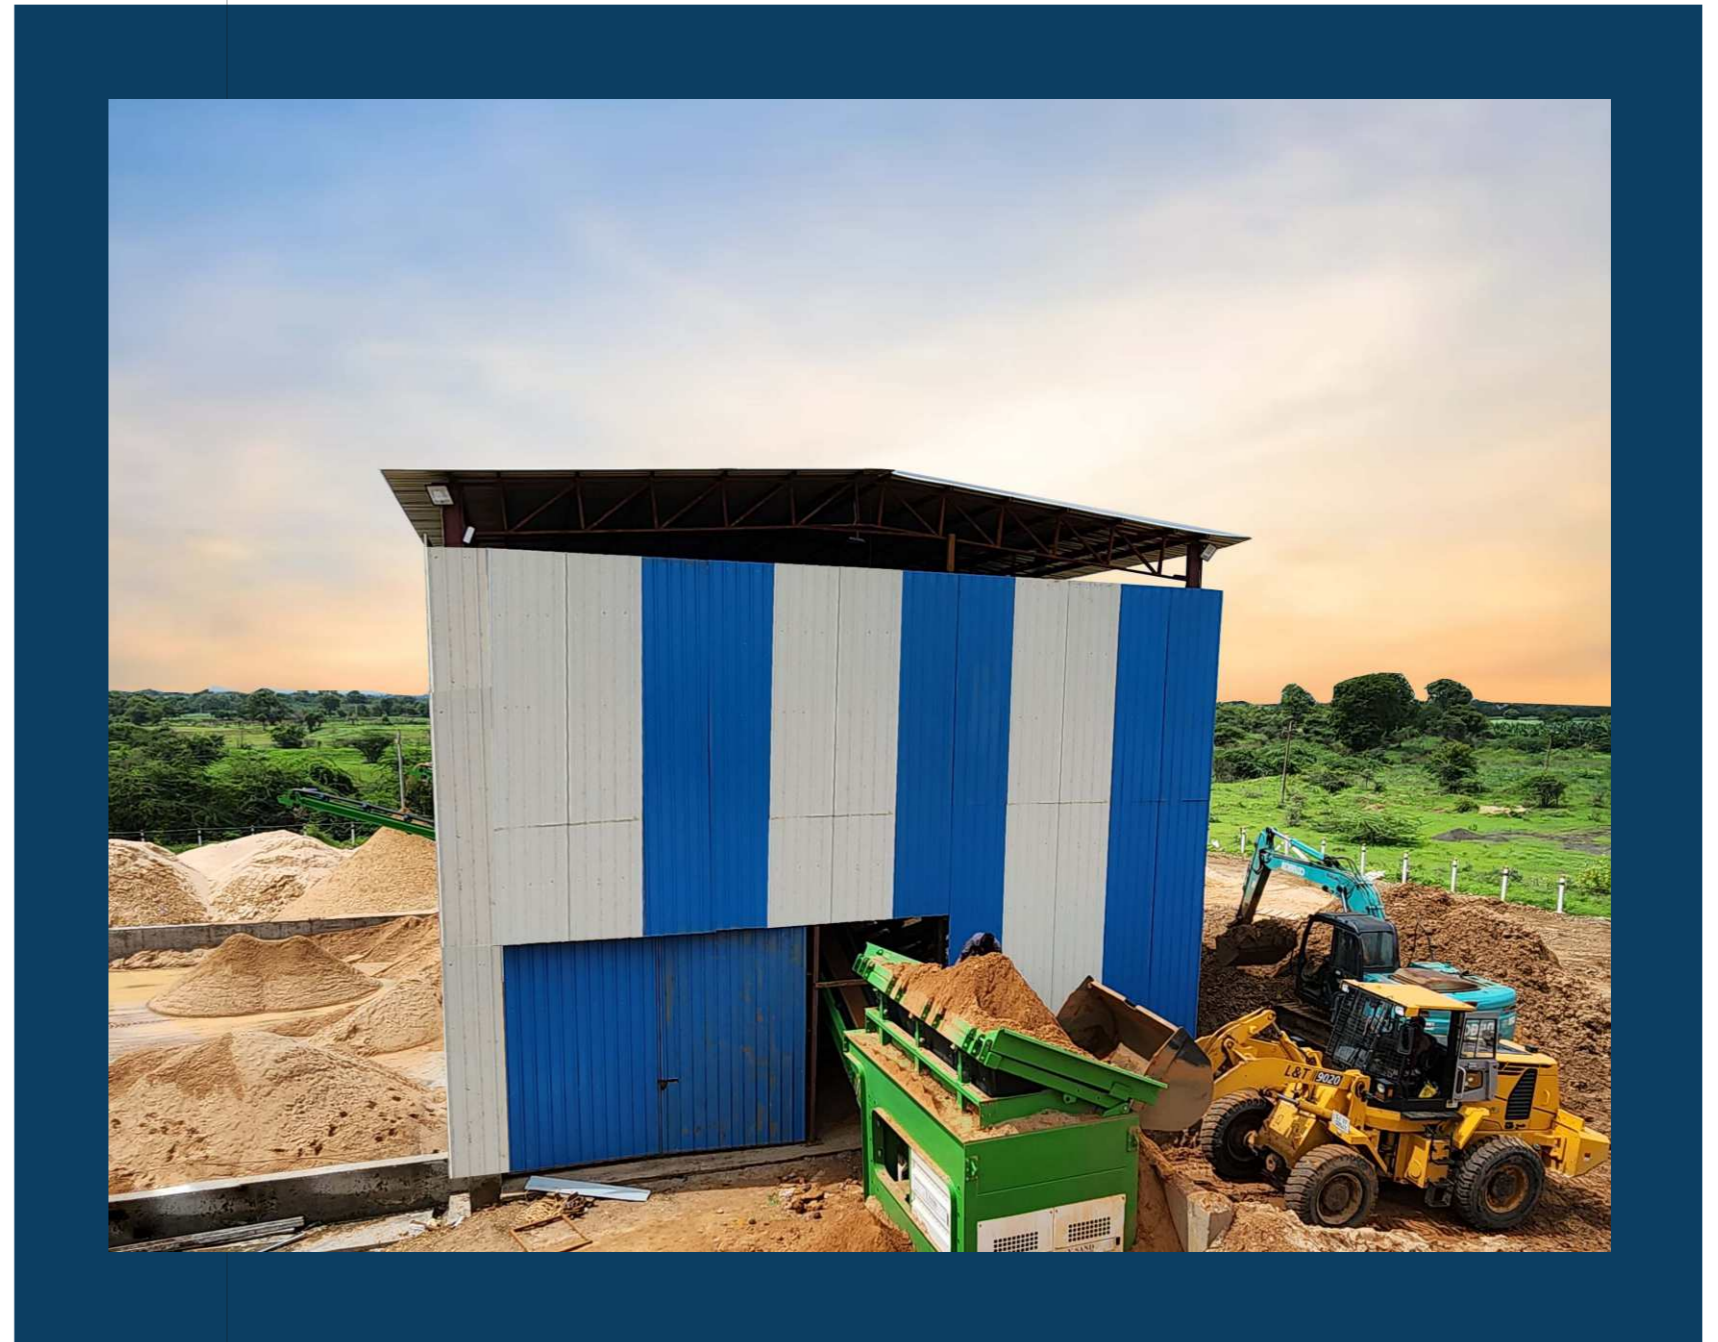

CUSTOMER FOCUS:

We are committed to understanding and meeting the unique needs of our customers, ensuring their satisfaction with every interaction.

SUSTAINABILITY:

We are dedicated to environmentally responsible mining practices that minimize our ecological footprint and contribute positively to the communities where we operate.

V SAND®

► SILICA SAND

Silica sand is a fundamental component in various industrial applications due to its high purity, superior quality, and diverse range of uses. At Livic Minerals LLP, we specialize in manufacturing several grades of silica sand tailored to meet the stringent demands of different industries.

► CHEMICAL GRADE SILICA SAND

With a focus on purity and consistency, our chemical grade silica sand meets the exacting standards required for applications in the chemical industry. It is used as a raw material in the production of various chemicals and compounds.

► DRIED & WASHED SILICA SAND

Our dried and washed silica sand undergoes a thorough washing and drying process to remove impurities and achieve a high level of cleanliness. This product is favored in industries where cleanliness and uniformity are paramount, such as glass manufacturing and industrial filtration.

► BOILER SAND

Our boiler sand is meticulously processed to ensure optimal particle size distribution and purity, making it ideal for use in boilers and other high-temperature applications where thermal conductivity and stability are crucial.

► DRIED & WASHED SILICA SAND FOR FOUNDRY

Specifically formulated for foundry applications, our dried and washed silica sand meets the stringent requirements of the foundry industry. It provides excellent moldability, strength, and thermal stability, making it an essential material for casting processes.

V SAND[®]

► CONSTRUCTION SAND

Livic Minerals LLP offers high-quality construction sand that is essential for various building and construction projects. Our construction sand is sourced from reliable deposits and processed to meet strict quality standards, ensuring optimal performance and durability in concrete mixes, plastering, and other construction applications.

V SAND[®]

► P SAND

P Sand, or Plastering Sand, is a specialized product designed for plastering and concrete applications. It is finely graded and carefully processed to ensure superior bonding strength and consistency, making it ideal for achieving smooth and durable finishes in plasterwork and concrete structures.
